

Lecorpio

Intellectual Property Management

“Deploying Lecorpio has provided us with greater visibility across our IP and the ability to quickly determine our patent strength in key technology areas”

Peggy Chern
Corporate Counsel,
Keyssa

Enabling companies to unleash the power of innovation

Trusted by the world’s most innovative companies, Lecorpio Intellectual Property Management provides a secure, web-based portal for centrally managing the entire IP lifecycle - from the submission of disclosures and trademark search requests all the way through to the payment of annuities and renewals, and ongoing opposition filings, enforcement actions, arbitration, litigation, contracts, license agreements and more. And with robust reporting and analytics, IP departments are able to make data-driven decisions about what, where and when to file with a thorough understanding of the financial implications of those decisions, the potential risks, and opportunities for maximizing value.

With Lecorpio Intellectual Property Management, companies can:

- **Simplify processes with automated workflows.** Streamline frequent administrative processes with easy-to-use, rapid and automated workflows for domestic and international filings, docketing, prosecution and maintenance.
- **Measure productivity.** Gain real-time analytical insight into the productivity and performance of law firms to improve decision-making.
- **Improve budget planning and forecasting.** Manage budgets and monitor any unapproved extensions on filings, gaps between estimates and actuals.
- **Manage institutional knowledge.** Access current, accurate data from a single, secure location, and share knowledge on intellectual assets internally, with law firms and across the extended enterprise.
- **Manage risks and rewards.** Perform graphical analysis on to understand gaps in innovation and geographical coverage, and uncover opportunities for licensing and sales.

Available as stand-alone modules or as a fully-integrated suite, Lecorpio Intellectual Property Management includes:

“Rather than telling us the way things had to be implemented, Lecorpio’s team listened to what we needed and made suggestions about our different options.”

Joseph Kolodka
Lead Counsel,
NEC Labs

Lecorpio Invention Disclosure Management

Speed innovation and simplify processes with this easy-to-use, web-based portal utilized by inventors to collaborate during idea development and to submit new invention disclosures. Configurable workflows facilitate patent committee approval processes and decisions are tracked for future reference.
